# WARRANT FOR STATE ELECTION

November 6, 1962

Norfolk, ss.

To either of the Constables of the Town of Bellingham: Greetings

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of said Town who are qualified to

vote in elections and Town affairs to meet at the polling places of their respective precincts, to wit: Precinct 1—Town Hall, Precinct 2—North Community House, and Precinct 3 — South Community Building on Tuesday the sixth day of November, 1962 at 10:00 a.m. then and there to bring in their votes for the following State and County Officers:

Senator in Congress (to fill vacancy); Governor; Lieutenant Governor; Attorney General; Secretary; Treasurer; Auditor; Representative in Congress; Councillor; Senator; 1 Representative in General Court; District Attorney; County Commissioner; and Sheriff.

# QUESTIONS

Question No. 1. Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held May 13, 1959, received 143 votes in the affirmative and 118 in the negative, and in a joint session of the two branches held March 29, 1961, received 144 votts in the affirmative and 121 in the negative?

#### SUMMARY

The proposed amendment imposes no new taxes but gives the General Court the power to pass an income tax at graduated or proportioned rates and is a change in the constitutional limitations now in effect on the power of the General Court to pass tax measures. The proposed amendment would add a new Article to the Constitution of the Commonwealth by which full power and authority is granted to the General Court, in the alternative to the power and authority to tax incomes in the manner provided in Article XLIV of the Amendments to the Constitution, to impose a tax on incomes at rates which are proportioned or graduated according to the amount of income received, irrespective of the source from which it may be derived, and to grant reasonable exemptions. deductions and abatements. It further provided that any property the income of which is taxed under the provisions of the proposed Article may be exempted from the imposition and levying of proportional and reasonable assessments, rates and taxes as at present authorized by the Constitution, and that the Article shall not be construed to limit the power of the General Court to impose and levy reasonable duties and excises.

Question No. 2. Do you approve of a law summarized below, which was approved by both branches of the General Court by vote not recorded?

### **SUMMARY**

This act increases the compensation each member of the General Court shall receive for each regular annual session from fiftytwo hundred dollars to sixty-seven hundred dollars and increases the additional compensation the President of the Senate and the Speaker of the House of Representatives shall receive from fiftytwo hundred dollars to sixty-seven hundred dollars. The act also increases the additional compensation the floor leaders of the major political parties in the Senate and House of Representatives, the Chairman of the Senate Committee on Ways and Means and the Chairman and Vice-Chairman of the House Committee on Ways and Means shall receive from twenty-six hundred dollars to thirtythree hundred and fifty dollars, and provides that a member of the General Court chosen to fill a vacancy, or who resigns his seat during a regular annual session, shall receive a per diem compensation at the increased rate of compensation for each regular annual session

- Question No. 3. A) Shall licenses be granted in this city or town for the sale therein of all alcoholic beverages (whiskey, rum, gin, malt beverages, wines and all other alcoholic beverages)?
- B) Shall licenses be granted in this city or town for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages)?
- C) Shall licenses be granted in this city or town for the sale therein of all alcoholic beverages in packages, so called, not to be drunk on the premises?
- Question No. 4. (A Shall the pari-mutuel system of betting on licensed horse races be permitted in this county?
- B) Shall the pari-mutuel system of betting on itcensed dog races be permitted in this county?

The polls will be open from 10 A.M. to 8 P.M.

And you are hereby directed to serve this warrant by posting printed, attested copies thereof (as directed by the By-laws) in said Town at least seven days before the day of said meeting.

Hereof fail not and make due return of this warrant with your

doings thereon to the Clerk of said Town at or before the time of said meeting.

Given under our hands at Bellingham, this 22nd day of October, A.D. 1962.

## ANNUAL REPORTS

OF THE

## TOWN ELECTED

AND

# APPOINTED OFFICERS

OF THE

# TOWN OF BELLINGHAM, MASS.

For the Year Ending December 31, 1962

# REPORT OF THE BOARD OF SELECTMEN AND BOARD OF HEALTH

The Board of Selectmen, consisting of Joseph F. Spas, Joseph R. Scolavino and Leo A. Stearns, organized for the year 1962 by naming Joseph F. Spas as its chairman.

Mrs. Theresa Plunkett was appointed as Secretary, Bertrand Remillard as Clerk-Health Agent and R. Bernard Biron as Town Counsel.

In the 1961 Annual Town Report, your Board of Selectmen reported that most of their time during that year had been devoted to the fair and proper enforcement of rules, regulations, restrictions, by-laws and general laws, most of which had been adopted just prior to their being elected to office.

Unfortunately, most of the town residents were not familiar with these new laws and because of this, many misunderstandings developed which made their enforcement more awkward and unnecessarily unpleasant.

During the year 1962 however, your Board of Selectmen is happy to report that most of the first year problems have been satisfactorily resolved, mostly due to a better understanding of the meaning and intent of these laws by the public; especially the fact that their prime purpose is to protect the home owner or prospective home buyer from any possible laxities or negligence on the part of home builders or contractors, rather than to restrict the home owners from their just rights.

All home builders, contractors and developers of subdivisions are now well aware of the requirements of our laws and they are complying with them in all respects. This will further ensure all new home buyers that their homes conform to minimum standards and that they need not fear the development of troublesome home problems at some future date.

Your board would like to take this opportunity to publicly compliment its appointed officials for having done a splendid job of implementing these laws and familiarizing all concerned with their requirements in an efficient and courteous manner, namely; the Zoning Agent, Emile Niedzwiadek; the Plumbing Inspector, Timothy Harper; the Assistant Plumbing Inspector, Thomas Heavey; the Health Agent, Bertrand Remillard; the Electrical Inspector,

Roland Belliveau; and also the Town Counsel, R. Bernard Biron, for the many hours which he has devoted to the proper interpretation of these laws.

The foregoing has therefore enabled the Board of Selectmen to devote more of its time during the past year to the research and development of progressive plans to coincide with the exceedingly rapid growth of this community, some of which are being proposed at this year's Annual Town Meeting as explained under the following sub-headings.

#### POLIO CLINICS

Again, your board is happy to report that it was able to sponsor three free Polio Clinics for the public last year.

The clinics were organized by Health Agent, Bertrand Remillard. All were well attended and we are pleased to report that there was not one single case of poliomyelitis contracted within the Town of Bellingham in 1962.

The clinics were under the direction of members of the Air Force Reserve, Captain Norman Traverse and Lieutenant Joseph Goff of the 619th USAF Hospital in Needham, Massachusetts. Lieutenant Goff was formerly a resident of Bellingham, and although he had relocated to Brockton prior to these clinics, he again volunteered his services.

One of the clinics was for the inoculation of Salk vaccine and the other two were for Types I and III of the oral Sabin vaccine which was made available by the Massachusetts Department of Public Health much ahead of most of the other states in the nation. It was administered only to the highest susceptible age group of 3 months through age 7 first, because of its limited supply.

An additional supply Types I, II, and III is expected to be available during the first half of 1963 for all children 3 months to age 19, and your board has made plans to obtain the vaccine for this group.

We also wish to take this opportunity to thank a group of volunteer clerical workers headed by Mrs. Gloria Spayd and the nurses from the Milford District Nursing Association.

#### THREE YEAR TERMS

The year 1963 will bring the election of Selectmen for three year terms on a staggered system. This was proposed by your board last year and adopted at a Special Town Meeting, by a unanimous vote.

Our purpose in proposing this change from the one year system was not to provide personal job security, but rather to provide the townspeople with a continuity of office which is so badly needed in rapidly growing communities and with the ever increasing amount of responsibilities that are heaped upon town officials due to the modern ways of bureaucracy.

Were it not for the three year term, it is our opinion that it would be highly detrimental for Bellingham or any other town to suddenly find itself with three new and inexperienced Selectmen after any election.

#### POLICE AND FIRE STATION

The growing needs of better fire protection because of increased homes and population in this oddly shaped town, which is all on length, has pointed the need for a new Fire Station in North Bellingham which was constructed last year at a nominal cost.

It is now our opinion that this should be followed up with better police protection by adding another cruiser car and one or two extra patrolmen to provide coverage at both ends of town at all times.

The increased need for space in the Town Hall and in the Highway Barn which is partially used by the Fire Department has prompted this board to propose the construction of a new combination Police and Fire Station in the center of town, to alleviate this condition.

An option was obtained on a 5.5 acre lot of land which is centrally located and an article has been placed on the Annual Town Meeting Warrant for its purchase.

Your Selectmen have also taken advantage of a new federal law which provides for as much as 50% federal reimbursement on the construction of municipal buildings, by filing an application for

reimbursement on a proposed combination Police and Fire Station. This will also be acted upon at the Annual Town Meeting.

#### STREET LIGHTS

This board has adopted the policy of installing street lights in subdivisions whether or not the streets have been officially accepted by the town, to provide safety for the people living in these areas.

It is our intention to continue this practice whenever new streets are completed and the homes become occupied.

#### SUB-SURFACE DRAINAGE

An additional grant of approximately \$8000, was received from the State last year and it is our intention to utilize these funds for the construction of sub-surface drains in the areas of Spring and Winter Streets, on Route #126 near the Wethersfield subrivision and on Farm Street near the Valley View subdivision.

The Town of Bellingham will not be required to contributed one single cent towards these projects, as they will be exclusively accomplished with State funds.

#### HIGHWAY DEPARTMENT

The Highway Department has been very capably directed, under the supervision of the newly appointed Highway Superintendent, Louis Daigle.

Many savings have been made in the various accounts under his responsibility and the town is being provided with increased services.

The Chapter 90 New Construction on South Main Street near the center was completed with a minimum of delays and well done job. This marked the first time in which a pre-mixed hot top was applied with an automatic street surfacing machine.

All Highway materials are now purchased on a competitive bid basis.

It has been several years since the Highway Department purchased new trucks and therefore, two of them are being recommended in this year's budget. It is also the boards intention to recommend the purchase of new sand spreaders and a new front endloader which would provide a considerable savings in money by eliminating the need for rental equipment.

#### SUMMARY

There are many more matters to be delved into which would benefit the town greatly and given the necessary time you may rest assured that this board has every intention of doing so.

We wish to take this opportunity to thank all town officials who have cooperated with us during the past year, and we also thank you, the voters and taxpayers of Bellingham, for the patience, faith and confidence which you have shown and expressed during our terms of office.

Respectfully yours,

JOSEPH F. SPAS, Chairman JOSEPH R. SCOLAVINO LEO A. STEARNS

## REPORT OF TOWN COUNSEL

(As required by Section 3 of Article VII of the Town By-Laws)

Cases Pending December 31, 1962

City of Boston vs. Town of Bellingham in the Municipal Court of Boston: This is a welfare assistance case.

Board of Health and Board of Selectmen of the Town of Bellingham vs. Planning Board of the Town of Bellingham et. al., Case #72055, Equity, in the Superior Court for Norfolk County: This is a dispute over the approval of a subdivision of houses by the Planning Board known as "Pilgrim Village at Bellingham," which subdivision would have been located on the property of Henry and Gertrude Johnson on Hartford Avenue, Bellingham, Mass. During the year 1962 the said Superior Court handed down a decision in favor of the Board of Health and/or Board of Selectmen and against the Planning Board, however, there was an appeal taken recently by the developer to the Massachusetts Supreme Judicial Court.

## Chapter 90 Construction

Widening of So. Main St;

Due to reasons beyond our control and the State Engineers, wors was not started before Oct. 6th, 1962.

Work done consisted of;

Trees and stumps removal, roadway earth excavation, drainages, field stone retaining wall, gravel borrow foundation, grading and rolling.

Due to cold weather the mix in place could not be done.

A summary of bids and permission to change to a type I binder was granted by F. L. Tripp, District Engineer of District #6.

Work to be done consists of, sloping, raking, seeding, installing walks, steps, berms, and drainages, also correcting driveways on both sides of the construction

All work being done as per agreement between the Board of Selectmen and the State Engineers.

#### Sidewalk Construction

The sidewalk from Potter Dr. northerly 2238 lin. ft. by 5 ft. wide will be constructed in conjunction or after the widening of So. Main St. is done.

The Hartford Ave. sidewalk from Maple Street to the North Bellingham Municipal Field a distance of 2750 lin. ft. by 5 ft. wide will be finished soon. The berm, the base binder and part of the finish top was done.

Harpin St. sidewalk from Pulaski Blvd, Westerly a distance of 1350 lin. ft. by 5 ft. wide were constructed

## Pearl Street Drainage

1200 lin. feet of 12" concrete pipe was installed, also 8 catch basins and 5 manholes were constructed.

## Snow Removal and Sanding

Ploughed and picked up snow for all major storms in 1962. Sanding and salting for ice control throughout the winter season. ICY SPOTS caused by inadequate drainage, are still a source of trouble and accidents and should be corrected.

More sand is needed where poor drainage exist and twice as much fer our ever increasing traffic on our narrow tree studded secondary roads.

I feel that the equipment asked for in the warrant is needed to perform the duties of the Highway Department efficiently and economically.

I wish to thank the Board of Selectmen the Pnlice Oepartment, the Answering Service, and all the other Town Departments for their cooperation.

I am also very grateful to so many of the understanding Citizens, and the Highway Employees for their earnest endeavor in helping to maintain and improve the Highways of your Town.

Respectfully submitted.

LOUIS DAIGLE
Superintendent of Streets & Highways

## REPORT OF THE ZONING AGENT

To the Honorable Board of Selectmen and to the Citizens and Tax-payers of Bellingham:

The annual report of the Zoning Agent is herewith submitted.

The function of the Zoning Agent is to issue building permits to those whn comply with the regulations of the zoning by-laws, to investigate all complaints of non-compliance and to enforce the zoning by-laws.

During the year 1962, 350 permits were issued. This brought a total of \$3,117.00 to the Town of Bellingham. However, \$946.00 of this amount was collected in the last few days of 1962 and was

turned in on January 7, 1963 and will be shown in the Town receipts for the year 1963.

There were permits issued for the following:

277—Single family dwellings

27-Additions to existing dwellings

11—Garages

6—Outbuildings (storage)

2-Barns

1-Junior-Senior High School

1-Fire Station (addition to North Community Building)

7—Commercial buildings including 1 Department Store and 2 Supermarkets

5-Additions to commercial buildings

13—Demolitions

The total income for the year 1962 reflects an increase of 194.6% over 1961. The total number of permits issued in 1962 reflects an increase of 159.3% over 1961.

I wish to thank the members of the Board of Selectmen, Town Counsel, Zoning Board of Appeals and all the other departments in Town for their cooperation during the year 1962.

Respectfully submitted,

EMILE W. NIEDZWIADEK
Zoning Agent

#### REPORT OF PLUMBING INSPECTOR

To the Honorable Board of Selectmen:

As plumbing and gas inspector, I hereby submit my report for the year ending Dec. 31, 1962.

I issued 296 permits for plumbing and inspected same.

I also issued 144 permits for installations of gas furnaces and household appliances and inspected the same.

Respectfully submitted.

A. TIMOTHY HARPER
Plumbing and Gas Inspector

## REPORT OF FIRE AND FOREST FIRE DEPARTMENT

To the Honorable Board of Selectmen:

As Chief of the Fire Department and as Forest Fire Warden, I hereby wish to submit the following combined report for the Fire Department, Forest Fire Department and the Ambulance-Rescue Division.

The alarms answered by the above mention departments were as follows for the year 1962:

Fire Department Calls		63
Forest Fire Department	Calls	71
Ambulance-Rescue Calls		187
		321

There has been an increased number of calls in all Departments this past year, especially in the Ambulance-Rescue Division where the increase was approximately 45%. This averages about one call every other day.

The Fire Department this year was very fortunate in having a new station built next to the Community Building in North Bellingham. This is the third station in Bellingham and is to be known as Station #3. This station houses two fire trucks. Station #2, located in Bellingham Center, houses two fire trucks and the Rescue-Wagon. Station #1, in South Bellingham, houses two fire trucks and the Ambulance. Seven of the vehicles are equipped with two-way radios.

In addition to the Rescue Wagon and the Ambulance, the Department consists of one 750-gallon per minute pumper, two 500-gallon per minute pumpers and three Forest Fire Trucks with smaller pumps.

The Fire Department budget being submitted this year is record high. However, we must take into consideration the Town's rapid growth and we should also plan for the future.

The budgets submitted for the Fire, Forest Fire and Ambulance-Rescue are the results of intensive study, exchange of ideas and conferences with twelve officers of the combined department, in order to meet the Town's needs and make Bellingham a safe place to live.

To the Honorable Board of Selectmen, I wish to express my sincere "thanks" for their cooperation, understanding and assistance that they have given the three divisions that come under the jurisdiction of the Fire Department.

Our usual "thanks" to the Highway and Water Departments who have been very cooperative in keeping the Fire Department informed of all highways and hydrants under repairs. This is greatly appreciated.

I would like to take this opportunity to thank all officers and men of each of the three stations and to the members of the Ambulance-Rescue Division for their splendid cooperation and devotion to duty. In addition to their answering emergency calls, they devote a great deal of their free time attending practice and drill sessions in order that they may be best prepared for any emergency that might arise, thus giving the Town's people the best possible service.

In conclusion, the members of the Fire Department, Forest Fire Department and the Ambulance-Rescue Division wish to express their appreciation for the cooperation that has been received from all sources and hope that it will continue in the future.

Respectfully submitted,

## PETER KORNICKI

## REPORT OF HEALTH OFFICER

November 27, 1962

#### Gentlemen:

The following is a report of my work done as Physician to the Board of Health for the year 1962.

Antigen Clinics were held throughout the town in the spring of the year and Small Pox Vaccination Clinics were also held. Type Three Oral Sabin Clinic was held under my supervision in May 1962.

I am happy to report that not a single case of Poliomyelitis was reported in the Town of Bellingham this year.

I want to thank you, the Misses Lucy King, R.N. and Grace Moran, R.N. for your splendid co-operation during the year.

Respectfully submitted,

HAROLD L. SHENKER, M.D., F.A.C.C. Physician to the Board of Health Town of Bellingham, Mass.

#### REPORT OF THE DIRECTOR OF VETERANS' SERVICES

To the Honorable Board of Selectmen of Bellingham, Massachusetts:

I herewith submit my annual report as Director of Veterans' Services in the Town of Bellingham, Massachusetts. During the year, 1962 cases of all needy, worthy and eligible veterans and their families were taken care of to the satisfaction of all concerned, under the laws of Chapter #115 set forth by the Commonwealth of Massachusetts.

I wish to take this time to thank the Board of Selectmen for having appointed me Veterans' Director for the fourth year, it is a position that I have gained much experience and enjoyed.

## REPORT OF THE ZONING BOARD OF APPEALS

To the Honorable Board of Selectmen and to the Citizens and Taxpayers of Bellingham:

The Zoning Board of Appeals was organized for the year on April 5, 1962. Clinton Jacks was elected chairman, Bertrand Boiteau was named clerk. The other member being Ferdinand Gladu with A. Anthony Zerneri serving as the alternate.

In the month of August, Ferdinand Gladu resigned due to the pressure of business. A. Anthony Zerneri now serving as a regular member. In November, Clinton Jacks also was forced to resign because of business pressures. At this time the Board of Selectmen appointed Archile Trottier. A. Anthony Zerneri was elected chairman at this time.

1962 was a fairly busy year for the Zoning Board of Appeals. We had a total of 18 Public Hearings on petitions for Variances to the Zoning By-Laws. 17 of these were approved, 2 on a limited basis and 1 was turned down.

Many thanks should be given to R. Bernard Biron, Town Counsel, for his assistance to the Board during the year 1962.

As we did last year, the Board would like to advise the townspeople as to the procedure to be followed seeking a Variance. Variance forms can be obtained from the Board of Appeals who meet the first and third Thursday of each month at 7:30 P.M. at the Town Hall, or the Zoning Agent. This form must be completed and submitted to the Board with the names and addresses of every abutter, also a check for \$20.00 to cover the cost of advertising, registered mail, etc. Upon receipt of an application for a Variance, the Board will set up a Public Hearing date which will be at least 14 days following receipt of said application. A period of six weeks should be allowed from the time of application to the beginning of construction.

The reason for this explanation is to familiarize the townspeople with the procedure for obtaining a Variance.

Respectfully submitted,

A. ANTHONY ZERNERI, Chairman BERTRAND R. BOITEAU, Clerk ARCHILE E. TROTTIER

# ANNUAL REPORT OF THE INDUSTRIAL DEVELOPMENT COMMISSION

The Industrial Development Commission files its annual report in order to make the townspeople aware of its activities and future plans.

Our present plans are to promote community development as well as industrial and commercial development.

Our thinking is that the elimination of some of the towns weaknesses will make Bellingham more attractive to business. With this in mind we have been working with other departments to help solve some of the towns problems—We laid the ground work by investigating the program and obtaining forms for the Water Commissioners in the application for federal grants to alleviate the chronic water shortage—The selectmen in the application for federal grants to eliminate the shortage of space for the fire and police departments.

The commission is pleased that the town is making good progress in providing excellent school facilities and we are also pleaser that the solution to the dump problem seems to be near.

It would seem to us that after the Fire and Police Department and Water Department problems that the number three problem is the condition of our secondary roads and bridges.

As we have done in the past year we intend to meet with our state representatives to explore the possibility of increasing state and county funds for our highways.

The Industrial commission has been in contact with the Post Office Department in an attempt to improve our postal set up. We hope that action on a new post office will be taken in the coming year. Partial success along these lines was achieved by securing home delivery in the Wethersfield and North Main Street areas.

In regard to future plans of the Industrial Development Commission we would like to see the town adopt the Master Plan that is being drawn up by Economic Development Associates.

A plan for orderly growth is essential if we are to remain solvent.

It would appear to us that our residential development is far out of proportion to our industrial and commercial development. This Master Plan may be the means of slowing down our residential growth and allowing our commercial growth to catch up so that the town will be on a sound fiscal footing.

Another project for this year will be to press for earlier completion of route 495 which is in the design stage in this area. We intend to do this in conjunction with neighboring towns through the Outer Belt Industrial Commission.

The commission was most fortunate in obtaining the services of Harry Daly to replace Bernard Martin who has moved to Virginia. His sales experience should prove most helpful to the commission.

In closing the Industrial Commission is proud that it was instrumental in bringing—The Warwick Shopping Plaza, Collamattis Super Market and Norfolk County Trust Cempany to Bellingham in the past year. We would also like to extend our congratulations to the developers of the industrial district at Bellingham four corners and all commercial enterprises both new and old for choosing Bellingham as a location for their businesses.

Respectfully submitted,

LLOYD E. RHODES HARRY J. DALY P. THOMAS McCLUSKEY JOSEPH G. CORTES EDWARD D. MARTIN

## REPORT OF NORTH MUNICIPAL FIELD COMMITTEE

To the Honorable Board of Selectmen:

Work done and equipment purchased in 1962 for the North Municipal Field.

A new back stop was installed for the practice field, also ten (10) feet was added to the present back stop. A cinder line was put in to mark off the home-run line for Little League games.

Painted two back stops. Re-loamed, re-seeded and fertilized entire infield. Loamed and seeded outfield extension. Hot top driveway. Installed chain link fence along property line. A new engine had to be purchased for the lawn mower also a lawn roller, three new rakes, four basketball nets, six bases for the baseball diamond, six softballs.

Below is listed the proposed schedule for 1963:

Additional fence along property line, also fence in basketball court. Install a double tennis court complete with fence. Hot-top the parking area. Install bicycle rack and park benches. Install fence in front of dugouts and bleachers. Entrance sign over driveway.

## Respectfully submitted

## TOWN ACCOUNTANT'S REPORT FOR THE YEAR 1962

To the Honorable Board of Selectmen and the Taxpayers of Bellingham:

The annual Report of the Accounting Department is herewith submitted.

It comprises a Statement of Receipts, Appropriations, Transfers and Expenditures; also a Trial Balance showing balances carried forward to 1963, and a Balance Sheet showing the financial condition of the Town as of December 31, 1962.

Although taxes were reduced \$5.00 per thousand from the previous year, the balance in the Surplus Revenue account of \$205,829.70 and the "Free Cash" available is the highest on record.

The portion of Surplus Revenue certified by the Director of Accounts, as available funds, (Free Cash) as of January 1, 1963 is \$101,514.00 which may be used by the Town during 1963.

To all who extended me their cooperation during the past year, I express my sincere appreciation.

EDMOND E. GENTES,
Town Accountant

### REPORT OF TRUST FUNDS

### Cemetery Trust Funds:

The Town holds a number of accounts in trust for perpetual care in the various cemeteries. The balance of these accounts as of December 31, 1962 was \$11,156.80. There is \$438.67 available from interest earned for care during 1963.

### Oak Hill Cemetery Trust Fund:

\$500.00 is on deposit in the Milford Savings Bank with interest totaling \$942.47. Interest is to be credited to the account until the accumulative date is reached in 1977. The balance is \$1,442.47.

### Henry A. Whitney Library Fund:

\$100.00 is on deposit in the Milford Savings Bank with accumulated interest available for the purchase of books for the Town Library. The amount available is \$4.32.

### Stabilization Fund:

The balances in the Stabilization Fund are:	
Milford Savings Bank	\$ 3,423.68
Medway Cooperative Bank	3,411.92
Benjamin Franklin Savings Bank	3,650.03
Uxbridge Savings Bank	3,569.01
Medway Savings Bank	3,325.21

Fund balance \$17,379.85

### School Bond Issue:

The bond issue for the Junior-Senior High School was floated as of September 1. The Town was fortunate in obtaining what is considered as a good interest rate on the bonds. The bids were called for at a time when the financial market conditions appeared to be at their best. That they were in favorable order is reflected in the 3.20% interest rate and are paying. I am pleased to report that the Town was given an "A" rating by Moody's Investors Service.

I believe it proper to point out that the utilization of our stabilization fund with the matching state grant in connection with the school project means a savings of approximately \$53,000.00 in interest cost over the twenty year bond period.

The proceeds of the bond sale which are not immediately needed for meeting bills coming due have been invested in United States Treasury Bills. This will net the Town sizeable returns.

### Land Acquisition Loan::

The Town Meeting of December 28, 1961 authorized transfer of \$2,500.00 and a bond issue of \$19,500.00 not to exceed twenty years for the purchase of the land for the Junior-Senior High School. I felt that this loan should be for a much shorter period. The Board of Selectmen concurred and the loan is being paid over a four year schedule.

### Stabilization Fund:

I believe, and strongly recommend, that the present balance should be added to by appropriating a substantial amount to the stabilization fund in 1963. This will help pave the way when we are again faced with some capital improvement which can be financed in whole or in part by the fund. Building up as large a balance as possible in the fund is a necessity. The Town Meeting of February 8, 1962 authorized the transfer of \$79,459.95 from the fund to the new school construction account. This transfer was not made until we collected interest through July and this added considerably to the balance.

I would like to once again call attention to the fact that we are undoubtedly going to be financing many capital improvements in the near future. It is therefore imperative that each single expenditure be considered not on its own merits alone, but also on how it relates to the overall budget, both current and future.

Once again I am pleased to be able to say it is my privilege to serve the citizens of Bellingham. I welcome all recommendations which will help to aid the operation of this office. All records in my control are available for inspection at all times.

Respectfully submitted,
DAVID L. TUTTLE, JR.

Town Treasurer

### CHARITIES

### REPORT OF THE FINANCE COMMITTEE

The Finance Committee wishes to thank the various departments and petitioners who have co-operated by submitting their budgets and special articles to the committee at an early date so that time for proper consideration can be made for reasonable recommendations.

Because of the rapid growth of the town, the committee wishes to stress the need for the continuation of the work of the Consolidation Committee, so that some central department through which the various departments can work with each other for the smooth, orderly flow of business can be established. Also some central location where townspeople may get information and conduct their business with the town during the day is desired.

The committee feels that, because of the nature of special town meetings, the by-laws should be changed so that town by-law changes be made only at annual town meetings where a wider representation of the townspeople is in attendance.

It is encouraging to see that nearly all of the departments have been able to stay within their budgets for the year 1962.

The committee again urges the townspeople to attend the Finance Committee meetings and see for themselves how their tax money is spent and how their town operates. Often it is only at these meetings that the detailed operation of town government can be fully explained.

The year 1962 saw a very large increase in receipts and this is reflected in the December 31 cash balance. The main reason for this increase was the Junior-Senior High School bond issue. The bond issue issue was for \$1,390,000.00 and while this figure remains as part of the cash balance it is, of course, scheduled for payment of the school construction costs. We presently have \$1,112,172.65 of this amount invested in United States Treasury Bills.

### REPORT OF THE BOARD OF ASSESSORS

### Year Ending December 31, 1962

Gross Amount to be raised  Less total estimated receipts and available funds	\$968,359.93 403,560.22
Net amount to be raised by taxation  Number of Polls—2085  Personal Property value: \$578,575.00  Real Estate value: \$9,614,685.00  Tax Reverse Tax Rev	enue 31,821.63

Total taxes levied on Polls and Property \$564,799.71

Your assessors, this year, bring the following facts to your attention: Since 1952 the property valuations have just about doubled and the Motor Vehicle revenue, in these last 10 years has climbed from \$27,000. to well over the \$100,000. mark.

This large increase in Motor Vehicle revenue is largely responsible for the large "Free Cash" accounts of the last few years. The assessors did not expect this ever increasing number of automobile registrations to keep mounting the way it has. Instead of the one-car family of about 10 years ago, has now two and three cars per family bringing about this much increased Motor Vehicle revenue.

Your assessors respectfully recommend that this windfall of surplus monies be used to discharge some of the town's long-term obligations, rather than appropriated for current operating expenses.

The Board is gratified with the taxpayers' understanding of the assessors' position and is grateful for the co-operation received from other town officials, State Department of Taxation and housing project developers.

### REPORT OF THE BOARD OF WATER COMMISSIONERS

To The Citizens of Bellingham:

The Board of Water Commissioners consisting of Mr. Wilrose A. Dalpe, Mr. Bruno M. Santini and Mr. Rosaire J. Brien organized and appointed Mr. Arthur Ayotte, Supt. and Mr. Aram I. Gariepy water bill collector. Also appointed was Mr. Wilrose A. Dalpe Chairman, and Mr. Bruno M. Santini, Clerk. The Board holds its regular meetings on Monday evenings at the Town Hall.

The Board has attended several meetings of the New England Water Works Association during the past year in order to keep up with the changing times.

The Water Dept., that you the citizens have entrusted us with, has grown considerably as you will notice from the fine and explicit reports of the Supt. and Water Bill Collector. To these two line and conscientious gentlemen, we the Board, are very grateful.

To all the elected officials, appointed officials, committees, and Boards thank you again for your fine support and cooperation.

To the citizens of Bellingham we extend a standing invitation to visit the Water Dept. buildings which includes Office, Supply Room and Equipment, and Wells.

Respectfully submitted,

WILROSE A. DALPE, Chairman ROSARIE J. BRIEN BRUNO M. SANTINI, Clerk Board of Water Commissioners.

### New Well & Pumping Station

A new well and pumping station constructed in 1962 located in the approximate area of our No. 3 station has been in operation since July 19th.

This additional source of supply is adequate for our present needs, but if the increase in population and building construction continues, additional source of water will inevitably have to be developed.

### Recommendation

As previously recommended a site in North Bellingham for a new well is most desirable. The major portion of new building construction is in the north part of the Town Reduction of operation costs of the water system is best served by a well located there.

### Standpipe

Construction of an additional standpipe to increase the water storage capacity is of prime importance. Plans and specifications for a new standpipe are now being prepared and will be inserted in the annual Town warrant.

I wish to thank the various elected Boards, department heads and committees for their cooperation and assistance during the past year.

### REPORT OF THE WATER BILL COLLECTOR

Jan 12, 1963

To the Bellingham Board of Water Commissioners;-

### Gentlemen;

As Water Bill Collector for the Town of Bellingham, Mass. I hereby submit my Report for the year ending December 31, 1962 as follows;—

### REPORT OF PUBLIC WELFARE

During the year some radical changes were made in the Administration of this Department. In June at the insistance of the State Department of Welfare, there were some personnel changes made. William E. Quirk was namd Director, a new position of Social Worker was established and Mrs. June Whipple appointed. There is also a Junior Clerk Typist position available in the office, which at present is vacant, awaiting action by Civil Service. These personnel changes resulted in an increased cost for Administration. however, it also resulted in the assurance that the Town would get reimbursed proportionately from the Federal and State government as a result of having Civil Service approved employees.

The Welfare office administers five different categories of relief.

### 1. Medical Aid for the Aged:

This program is for persons over 65 who are medically indigent, people whose income is sufficient for ordinary needs, but not for medical expenses. Due to the increased cost of medical services the cost of this program is rising rapidly. In 1961 the cost was \$27,937.14 and in 1962 \$34,148.98, and will go higher in 1963, as hospitals and Nursing Homes have increased their rates. The present MAA case load is 21. The Federal government reimburses 50% of the total cost and the state 2/3 of the balance.

### 2. Old Age Assistance:

This program is for people over 65 who have no income or insufficient income to meet their needs, in which cash allowances are granted, in addition to medical care. This program shows a gradual decline, due to the fact that more people are eligible for Social Security and also Social Security payments are now higher. In 1961 the case load was 62 at a cost of \$63,303.81, in 1962 it was 54 at a cost of \$57,364.56. The Federal government now reimburses at the rate of \$54.00 per case per month. (In 1961 it was \$49.80 per case per month.) The State reimburses 2/3 of the balance on settled cases, and all of the balances on unsettled cases.

### 3. Aid to Dependent Children:

This category is for the purpose of assisting children who have been deprived of the normal support of either the father cr mother. This program is on the basis of need and the amount

of assistance given in accordance with budgetary standards established by the State Department of Welfare. Recent Federal emendments increased the amount of reimbursement for administration, but also increased more than double the amount of case work services to be furnished these recipients. The stress being on rehabilitating these cases and making them self supporting.

The Director and Social Worker are now taking In-Service Training Courses for the purpose of learning these new regulations and the means of putting them into effect. Projecting further, it may require before the year is over the adding of another Social Worker to handle these extra requirements, not only for ADC, but also the expanded services to be given to OAA and DA recipients. In 1961 the case load averaged 10 at a cost of \$7117.98. In 1962 the case load averaged 9 at a cost of \$8963.01 of which \$407.20 was Federal share and \$4915.51 State and Local share.

### 4. Disability Assistance:

This program is for needy persons, who are found to be stally and permanently disabled, based on medical evidence subsited to a State Medical Review Team, are given cash and nedical assistance. This program is now fairly stable, due to anges in Social Security law that takes care of more of the sabled people than previous.

In 1961 the cost was \$10,956.61 for 10 cases. In 1962 the cost was \$11,846.64 for 10 cases, the increase being due to a prolonged hospitalization of two of the cases. The Federal government now reimburses \$46.50 per case per month as compared to \$42.30 in 1961, and the State reimburses an amount which combined with Federal equals 75% of the total aid.

### 5. General Relief:

In this category persons in most cases are given emergency assistance, and are not prolonged cases. The entire cost of the aid is borne by the town of settlement, and persons with no settlement the entire cost is borne by the State. There is no Federal participation in this category. In 1961 the cost was \$17,955.32 with 58 families being aided during the year. In 1962 the cost was \$17,189.98 with 34 families being aided. However since June of 1962 the average cost per month has been \$1,147.00 as compared to \$1,909.00 per month, for the previous six months

As a final note, for the purpose of enlightening the Taxpayers. The money reimbursed from the Federal government is received monthly and is put into a revolving fund. The State reimburses periodically, however this money goes back into the Towns General fund. That is the reason that the States share must be appropriated annually at the Town Meeting. Also under the present Compensation Plan for Welfare the salaries of the employees is based on population groups. This Town has been in the 0 to 7000 group, and as the population has now gone over the 7000 mark, it will now be in the 7000 to 10,000 group and mean an increase in salary for the employees, which is mandatory under Chapter 529 of the Acts of 1961.

Your Director, William E. Quirk, Board members, Leopold D. Dussault, Chairman, Chester A. Gaskill, Alex Galuza and staff members wish to express their appreciation to other Town Departments, the Clergy, Court Officials and other Community Organizations for their continued cooperation.

We are not submitting in this report a detailed report of income and expenditures as the detailed report will be found in the report of the Town Accountant.

### Respectfully submitted

LEOPOLD D. DUSSAULT, Chairman CHESTER A. GASKILL ALEX GALUZA WILLIAM E. QUIRK, Director

### REPORT OF THE TREE WARDEN

To The Honorable Board of Selectmen:

Sixty-nine (69) trees had to be cut down in the year 1962, all of these trees which were dangerous due to the fact that the majority of them were dead and could have fallen at any time The following are the types which had to be removed: 30 elms; 10 white oak; 8 black oak; 12 maple; 1 pine; 8 birch.

Heavy trimming had to be done on Wrentham Rd., Lake St., Hartford Avenue, and Pulaski Blvd.

There are quite a few other streets in town which the roads are quite shady, curvy and narrow. Heavy trimming should be done to kind of widen these streets for better view and for cases of accidents to the public.

I figure there are an indefinite more of different type trees to be taken down and to be trimmed in the year 1963.

Respectfully submitted,

### SYLVIO DALPE

Tree Superintendent

### KEPORT OF THE SECONDARY SCHOOL BUILDING COMMITTEE

31 December 1962

To the Citizens of the Town of Bellingham:

Preliminary site work started in the spring with the Tree Warden's Department taking over the work of cutting the trees and brush. Then followed the burning of wood and digging and burning of stumps, plus the stripping and piling of topsoil. This was carried out by the Sagendorph contracting concern of Brookfield, low bidder for the work.

On July 28, the building contract was awarded to the Donatelli Construction Company of North Providence, low bidder among fifteen firms interested in the work.

The townspeople might be interested to know that due to favorable bidding conditions, the building committee has been able to restore some of the necessary space requirements that were originally eliminated for economic reasons. Your attention is also called to the fact that our general contract is so written that preference will be given to all qualified local business establishments and individuals.

On August 24, Daniel E. Hanlon of Medway was hired as Clerk of Works with his services to begin the latter part of September. Since that time the committee has been most satisfied with his work.

The equipment bids for the science equipment, homemaking and art equipment, and library shelving and furniture were solicited and have been awarded to the low bidder in each instance, namely; the Mainco firm of Canton and the O. P. Killam firm of Winchendon, and the committee is still working hopefully to rereceive any Federal assistance for equipment that may be forthcoming.

The bonds sold early in September for 3.20%. The town's fiscal agent advised the committee and Town Treasurer that we might have to expect as high a bid on the bonds as 3.6%. Fortunately this lower rate provides a saving to the town of \$58,020.00 as interest over the twenty-year period. The money of the school project has been reinvested and until it is necessary to be used to pay the contractor, approximately an additional \$25,000.00 will be

earned in interest. The town also provided a stabilization fund of \$79,495.95 which was voted to be used on the school project. The State matched this fund totalling \$158,919.90, of interest free money providing an additional saving to the town of approximately \$53,000.00. While the stabilization fund was accumulating since 1956, it earned approximately \$6,839.80 in interest. The townspeople should bear in mind at all times that the principal cost of the school project will be reimbursed by 50% in State grants.

Although the building project got off to a somewhat slower start than was expected, due to circumstances beyond the control of the committee, the Donatelli construction firm still holds the completion date for occupancy at December 31, 1963.

From the original senior high school plan to a junior-senior high school, means that by projected enrollments, grades 7-12 will completely fill the building by 1968, and Bellingham will need to be prepared for further expansion of its junior-senior facilities by that time. The townspeople should be reminded that sufficient lunds for the completion of athletic fields are out of the project. However, partial work on these fields will be done through the establishment of rough grades for most of the area. The exception is expected to be the back end of the proposed football field and the track. Existing material in this area could be readily used by the Highway Department in the repair and widening of Blackstone Street, which the town should vote to correct in 1963 for the following reasons: (a) to link two of the town's main arteries. namely; Routes 126, and 140, and (b) make all approaches to the new school more accommodating to the general public as well as the school population.

The building committee has worked with the Veteran's Honor Roll Committee for plans to dedicate the building as a memorial to Bellingham veterans. It is anticipated that a plot of ground will be prepared in the front of the building with proper facilities for commemoration. More on this will be forthcoming from the Veteran's Honor Roll Committee at a town meeting subsequent to this report. The building committee has also met with the Civil Defense group for the purpose of determining whether any facilities could be provided under the school plan for Civil Defense accommodations. An area might be provided for temporary accommodation for a control center, but Civil Defense requirements for a permanent control center are such that they could not be provided for within the school construction budget. However, the building, of course, could be used to house and feed through its kitchen facilities people under certain emergency conditions.

The committee wishes to express its appreciation to those many townspeople who have actively supported the committee and the need of the new and approved educational facilities for the junior-senior high school youngsters of Bellingham. Committee meetings are held usually on the 1st and 3rd Monday of each month, and deviations of those dates are published in the local papers. The meetings are open and the public is invited.

Respectfully submitted,

GEORGE A. HACHEY, Chairman RICHARD C. HILL, Vice Chairman ANTHONY C. MINICHIELLO, Secretary ROBERT A. LAIRD GORDON D. CURTIS LOUIS A. TOSCHES

### REPORT OF THE LIBRARY TRUSTEES

Continued growth in circulation figures at the main library and two branches of the Bellingham Public Library has caused the trustees to open the libraries for more days and hours.

Books were loaned to schools for use in classrooms: Center 302 and North 100. We borrowed 300 books from the Division of Library Extension for the Assumption School. Total 702 books.

Wages remained the same: \$1.25 per hour for head librarian and \$1.15 per hour for branch librarians and janitors.

While studying the basement room with thoughts of opening it as a children's room, we discovered 45 copies of a 1919 Town History. By vote of the March 16 Town meeting, we sold these copies for \$2.00 each and turned the money over to the town treasurer.

Some rotted roof boards were replaced and the trim on outside of Center Library was painted.

Mrs. Barbara Volk held a story hour for the North children every week during summer.

We purchased two sets of the Lincoln Library, one set for Center and one for South. These are excellent reference books. We also purchased two 48" round tables and eight chairs, for adults, and an electrolux vacuum cleaner.

Last year the trustees applied for and received from the State, the sum of over \$1600.00 which went into general treasury. We have applied for same again this year.

At the Center library, we desire to open up basement room by closing off furnace side with a fireproof wall and breaking through outside wall for a second exit with bulkhead type enclosure. We have asked for \$2000.00 in our 1963 budget to carry out above plans.

The shrubs at the Center library are continually being broken and the trustees are wondering if a fence around property would be the answer. The trustees would welcome any opinion in this regard.

The trustees thank all those who contributed books during the year, also the library staff and all those whose efforts were of assistance.

### REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Bellingham School Committee::

Undoubtedly we are all aware of the fact that our school population has been increasing and continues to increase significantly from year to year. A review of the age-grade enrollment as of October 1, 1962 gives testimony to the fact our present facilities do not adequately accommodate the housing needs of our students. Fortunately, however, with the completion of our new Junior-Senior High school this condition will be alleviated.

In the age-grade enrollment chart which follows it will be noted that as of October 1, 1962 we had enrolled 1,340 pupils. For

the fourth consecutive year our enrollment exceeds 1,000 pupils. Nine hundred and forty eight of our 1,340 pupils are enrolled in grades 1 through 8. Our enrollment in these grades now exceed our total enrollment as of 1957. The chart further indicates the number of boys and girls, their age and the grade they attend. Unlike the census figures which include all residents, this chart accounts for our public school pupils only. Therefore, the census chart will not necessarily agree with the age-grade enrollment chart.

### Actual and projected enrollment, 1952-1972

During the month of October, 1962 the annual census and distribution of minors was taken. The summary of this project includes all residents of the town between the ages of five and sixteen as of October 1, 1962. Residents who have attained their 16th birthday anniversary are not included. The results follow:

In light of the above it is respectfully recommended once again that with deliberate momentum, a committee be established to evaluate the implications of these figures as they relate to future school housing needs, in a long range study.

As has been indicated in the past, the volunteer efforts of our professional staff continue to improve our curriculum. For the past three years, we have been taking a hard look at our academic offerings. Various committees have been evaluating our courses of studies.

The area of language arts has been completed together with guides in arithmetic. It is expected that our social studies committee will complete its work in about a month. A preliminary study of High School offerings has been completed. It is expected that by the close of this school year that this work will be submitted for formal adoption. The studies which have been made, and are being made, consume a considerable amount of time and I am grateful to those on our staff who have served and are now contributing voluntarily to this effort.

Since reading is a tool subject and so vital in the learning process it was felt that our reading skills program should be bolstered by the implementation of various modern techniques so that the needs of our pupils can be better served. The controlled

groups to which we referred in our report of last year are still being evaluated. We are happy to say that since the adoption of our new approach to phonics, the reading ability of our pupils has improved. The new reading laboratories which were purchased should lend themselves to even greater reading comprehension on the part of our pupils. It is respectfully recommended that a reading consultant be engaged not only to assist our classroom teachers with the remedial phase of our reading program but the developmental phase as well.

We continue to participate in the Eastern Massachusetts Council for School Television program. Indications are that our pupils are benefiting greatly by this adjunct to our school program.

Reading readiness tests as well as intelligence quotient tests are administered at the first grade level. Our coordinated testing program throughout the system includes tests of intelligence, ability, readiness, achievement, and preference. Through this effort the classroom teacher as well as administration, become more cognizant, in a scientific way, of the strengths, weaknesses and interests of our pupils. Thus, the counseling process is aided, the pupil is appropriately placed and his needs more adequately considered.

We continue to gain the benefits of the provision in Public Law 864, commonly known as the National Defense Act. This fund has aided materially in the adoption of our full time guidance program. We are pleased that our recommendation for a full time guidance program has been adopted. This is a necessary service in a well-balanced educational program. The restoration of our driver training program is proving to be a very beneficial and important aspect of our program offerings.

We respectfully recommend that we engage the services of an art supervisor who could coordinate and bring even greater meaning to our art program.

During the course of the past year we have had the benefits of visits from various consultants in subject matter areas at no cost to the town. Indeed our staff has benefited professionally by these seminars.

Additionally, our staff has participated in various conferences, workshops, and conventions held at the area level as well as the county level. Here the teacher participates in discussions

having to do with some aspects of educational content and modern techniques in teaching.

Several changes in our teaching staff have occurred. The following have left our system during the past year:

### Center School:

Nancy Leone, Principal

### Pinecrest School:

Richard T. Green, Grade 6 James J. Connor, Jr., Grade 5 Phyllis Szpakowski, Grade 4 Helen M. Brann, Grade 1 Lucille A. Gould, Grade 1

The following have joined our staff:

### Center School:

Susan E. Beaulieu, Grade 1

### Pinecrest School:

Ronald W. Barney, Grade 5 Francis T. Flynn, Jr., Grade 5 Norma A. Regan, Grade 1 Ellen Eddy, Grade 1

### South School:

John R. Bibeault, Mathematics Donald J. Horan, English Joseph F. DiPietro, Mathematics, Science High School:

Kenneth J. Najjar, Biology, General Science James F. Ryan, Ancient History, J.B.T. Joan E. McLaughlin, Civics, English Alfred Hannigan, History Leonard J. Gauvin, Latin, French, Social Studies David P. Hayes, Algebra, General Science John E. McGrory, English

Other changes which have taken place:

John W. DiLibero, From South school to Guidance counselor Sadie W. Bliss, From Center school to Pinecrest school

We should continue to exert every effort to maintain and stabilize our teaching force. A good teaching environment and an attractive salary schedule not only permit us to secure the services of highly qualified teachers but contribute to higher morale, a significant ingredient in the teaching process.

It should be gratifying to all to know of the large number of our staff who continue in the pursuit of professional improvement. Indeed, this reflects in the continuing fine professional quality of instruction. This scholarly effort is greatly appreciated.

Repairs have been made in various school buildings in accordance with need in terms of the continued usefulness of our buildings.

Chimneys have been repaired at North, Center, and South schools. Center school trim has been painted. Windows, new shades and toilet facilities have been replaced or repaired in the South, Center, and High schools.

It is recommended that the South school be painted and lighting be improved not only at South school but the High school and one classroom in the North school as well.

The target date for the opening of our Junior-Senior High school is January, 1964. There is no doubt that this building will contribute in no small way to the improvement of the educational process. For whatever length of time our three wooden structures are maintained for school housing, we should strive to get the most and best use we can derive from them, bearing always in mind that

they constitute the environment in which teachers must teach and pupils must grow academically and socially.

I wish to thank the School Committee for the time, effort and interest they have exerted during the past year on behalf of the children of Bellingham.

My personal appreciation is also extended to our principals, supervisors, teachers, office service and custodial staff. I am also grateful for the effort extended by the Parent-Teacher Association, the Highway Department, Police Department, the Civil Defense Corps, and the many other church and civic groups that have assisted and shown interest in our educational goals. Finally, I wish to thank the residents of the Town of Bellingham for their support and assistance in our continued pursuit toward excellence.

Respectufully submitted,

ANTHONY C. MINICHIELLO

Superintendent of Schools

### REPORT OF THE HIGH SCHOOL PRINCIPAL

Mr. Anthony C. Minichiello Superintendent of Schools Bellingham, Massachusetts

Dear Mr. Minichiello:

I herewith submit my second annual report as **Principal of** Bellingham High School.

The enrollment for the year, as of October 1, 1962, was 394. The summary shows that there were 74 Seniors, 71 Juniors, 113 Sophomores, and 136 Freshmen. All classes were enrolled in a single session program.

The program of Studies and the graduation program have been submitted on separate copies with this report. Mr. John W. DiLibero, is submitting his report on our new Guidance Department.

The Honor Roll mark is 85% or over; High Honors is 95% or over; the Certifying Grade is 80%; the Passing Grade is 70% at our

school. Certifying grade means that accredited colleges will not require entrance examinations in any subjects in which our students have received a Certifying Grade.

This year, Bellingham High School is applying for membership in the National Honor Society. It is hoped that our application will be approved, and result in student membership acknowledgement at our Graduation exercises.

Mrs. M. Louise Kelley is the Dean of girls. She handles the many problems of our girl students most satisfactorily.

This year, Mr. James F. Ryan has been assigned Dean of boys; he has performed very efficiently in this capacity.

Our Health Department, under the direction of Miss Lucy King, RN, has proved very beneficial. Eye, ear and physical deficiencies have been discovered and remedied under her expert administration. In addition she is to be commended for her excellent work in the records department, which is always current.

Our extra-curricular program has been expanded. Included in this program are Student Council, Mr. Alfred F. Hannigan; Glee Club, Music Supervisor, Mr. John G. Clegg; Audio-Visual Aids Director, Mr. Francis J. Flynn; Driver Education Classes, Mr. Lionel R. MPlpr catical G.F 1 ether 6. Juga vy cmfw cmfw mfw mfwyffff R Trudeau and Mr. Emile W. Niedzwiadek; The Student Voice, Mr. John E. McGrory; The Science Club, Mr. Sidney S. Price; The Future Teachers' Association, Mrs. M. Louise Kelley and Mr. James F. Ryan; The Future Nurses' Association, Miss Joan McLaughlin; The Future Business of American Association, Mrs. Elizabeth A. Lowry; and The Dramatic Club, Mr. James F. Ryan. With the exception of Glee Club and Driver Education, all extra-curricular supervision is voluntary. The Staff morale has been extraordinary in this phase of the High School program. These members deserve my highest commendations.

Our annual yearbook, "The Epilogue," was published by the Class of 1962 under the direction of Miss Jean McKenna, Senior Class Advisor. The advertising staff received a very kind reception from the business and professional men in the area. We wish to thank them for their cooperation.

Our Sports program has been most successful. For the first time in the school's history, the Basketball team had an undefeated season: 22 Won, 0 Lost. In addition they captured the Tri-County Basketball League, Division B, Trophy and retained possession of the Woonsocket Retail Trade Trophy in their series with Blackstone High School. They suffered their only loss in the post-season, Eastern Massachusetts Interscholastic Championship Basketball Tournament, at Natick, Massachusetts. At the present writing the Basketball team has a 7 Won, 0 Lost record, maintaining the School's sports reputation.

The Baseball team closed the 1962 season with an 8 and 8 record; the Track team won 7 and lost 11; both show considerable improvement over the 1961 records.

Coach, Mr. Francis J. Flynn, is to be complimented for his excellent results, especially for his "perfect record" year in Basketball. His program has aided, in no small measure, our program for developing the well-rounded student. The members of the Athletic Association are to be complimented for their excellent assistance in these programs.

Girls Sports was introduced under the supervision of Mrs. Elizabeth A. Lowry. Her program proved very beneficial and met with enthusiastic response. She, likewise, directed our Cheerleaders who invariably add zest and enthusiasm to our Sports program.

A marked improvement in the administration of the High School has resulted from the appointment of our office secretary, Mrs. Mary Tremba. The records department is being brought up to date and made more comprehensive. The handling of the multiple requests—parent, teacher, and student—have been especially expediated. She has already become "the right arm."

The sale of U.S. Savings Stamps, under the direction of Mrs. George A. Hachey, has been included on the High School agenda, for the second year.

This year, the P.T.A., under the direction of Mrs. Lloyd Rhodes, the President, conducted a Christmas candy sale. The students received and sold candy bars for the Library Fund. Members of the P.T.A. conducted the sale from distribution through final returns. Also, P.T.A. announcements were periodically distributed to the students for delivery to their parents, during the school year.

A Magazine Drive was conducted under the direction of the Facutly Advisor, Mr. Lionel R. Trudeau.

Compliments are in order for our custodians, Mr. Lemire and Mr. Sarazin. They have, through their steady efforts, kept the school and its surroundings in very good condition, despite the fact that the enrollment has increased resulting in an increase of workload and additional janitorial duties.

Our present plans call for Senior Exercises to take place during the week of June 17, 1963 as follows: Class Outings, June 17; Class Banquet, June 18; Class Day, June 19; Graduation, June 20; Commencement Ball, June 21.

Last year's Commencement exercises were conducted under the supervision of Acting Principal, Mr. Walter F. Nadolny. They were a credit to him and his administrative ability. Upon return to active duty, I found my office had been functioning normally. I wish to express my sincere appreciation of and for his excellent performance during by absence.

As you know, a study and review of the policies and regulations is being made at this time. It is hoped with the School Committee's approval, that a revised copy, geared toward our new High School, will be available shortly for the secondary level of our educational system.

It seems concentrated time should be devoted to the evaluation and reconstruction of our various curricula in anticipation of our entrance into the new structure. My suggestion is that all student personnel, except the present Seniors, should be tested: academic, achievement, aptitude and interest-wise, through the Guidance Department, for construction of curricula geared toward the students' needs and abilities. Many new curricula should result from this program.

Our high school has grown numerically to the level where the introduction of Football into our Sports program should be given serious consideration. Clubs for those students interested in skiing and golfing would prove valuable additions to the recreational program.

The people of Bellingham are most fortunate in having such an excellent High School staff. From my position, their full value to the community stands out. Their abilities and cooperation are deserving of the highest possible commendation. I am most grateful to them for their devotion to and the performance of their multiple duties and responsibilities.

We wish to express our thanks to the Police Department and the C. D. Auxiliary Police Force for the excellent manner in which they have conducted their patrol work at our school activities; also, to the deceased Highway Department head, Mr. Wilfred Arcand, and our new Supervisor, Mr. Louis Daigle, Jr., for their excellent service rendered to our school.

To the people of the Town of Bellingham, the Reverend Clergy of the community, the Lions Club, the Franco-American Club, the American Legion and its Auxiliary, and the Parent-Teachers' Association, we wish to express our thanks for the very fine support given to our school.

In closing, I wish to express my sincere appreciation to you, Mr. Minichiello, and the members of the School Committee for your devotion to and the innumerable hours spent in making this administration a successful one.

Respectfully submitted,

JAMES J. KEOUGH,
Principal of the High School

### REPORT OF THE GUIDANCE COUNSELOR

Mr. Anthony C. Minichiello Superintendent of Schools Bellingham, Massachusetts

Dear Mr. Minichiello:

The following is a report of the Guidance Program for the year 1962.

The goal of the Guidance Program is to aid each student to make the best possible use of the available facilities in preparation for higher education, further training, or a more immediate entrance into the working world.

The most important service afforded each student is the Counseling Interview. Individuals have the opportunity to discuss their vocational and educational plans and to make a realistic appraisal of their potential in terms of current and past performance. Parents also, are invited to confer with the Guidance Counselor.

Grades one through eight are tested for general ability and achievement in alternate years. This supplements teacher-made tests and aids in evaluating pupil progress. At the High School level, approximately 21 seniors took the College Board Tests and 5, the National League for Nursing examination. Some members of the senior class will take the General Aptitude Test Battery administered by the Division of Employment Security later in the year. Thirty-six students were administered the Preliminary Scholastic Aptitude Test on October 16, 1962. The National Merit Scholarship Qualifying Test was administered to 30 juniors and the National Educational Development Test to 69 sophomores in March. Also, 114 students of grade eight took the SRA High School Placement Test.

Carefully kept and accurate records are vital elements of guidance. The individual inventory is an aid to assessing the past and present performance of the student and the information contained within is a number one requirement of advanced schools and prospective employees. Recording information and making this information available to schools, colleges, and employers who ask for it, is a time consuming essential clerical activity.

Information on the various careers, schools, colleges, training institutes, the services, scholarships and the like, is available in the

Guidance Room. Tapes and filmstrips on occupations are sent to the high school periodically from Northeastern University. Movies are utilized and representatives from the various schools talk to interested students about the programs sponsored by the schools they represent. Additionally, interviews at the schools are arranged for students who wish more specific information about programs and the physical nature of the schools.

A follow-up survey of the 33 graduates of the 62 class reveals that eleven are pursuing further study, six are fulfilling their military obligation, fifteen are employed, and one is married.

In closing may I express my appreciation to the members of the School Board and Mr. Minichiello for making avaiable to the students of the Bellingham schools for the first time in the history of Bellingham, a full time Guidance Program. It should be acknowledged that much of the success of this year's guidance effort is the direct result of the interest and cooperative activity of Mr. Keough and the high school personnel. I wish also to thank the principals, supervisors, teachers, community associations and interested individuals who have aided the guidance function through the past year.

Respectfully submitted,

JOHN W. DiLIBERO, Guidance Counselor

### REPORT OF THE MUSIC SUPERVISOR

Mr. Anthony C. Minichiello Superintendent of Schools Bellingham, Massachusetts

Dear Mr. Minichiello:

It is with much pleasure that I must submit to you the following report of the Music Education Program in the Bellingham Public Schools.

Your Music Supervisor visits each classroom in the Elementary buildings once a week. It is here, in our Elementary classroom that our youngsters receive the basic fundamentals of musical knowledge and skills.

In the Jr. High School we have a 7th grade chorus of 35 voices and an 8th grade chorus of 43 voices. These groups perform at the Graduation Exercises and at the P.T.A. Christmas program. Each group meets once each week as does the High School Glee Club.

Our Instrumental program has made much progress during this past year. There are presently 65 youngsters participating in the Bellingham School Band. The Band rehearses twice each week, in addition to this each youngster receives a lesson each week. The parents of these youngsters have formed the Bellingham Band Boosters Club. Their purpose is to cooperate with those in charge of the Bellingham School Band to the end that this group be brought up and kept to the highest possible degree of efficiency. To build and maintain an organization which will help promote the general activities of the Bellingham School Band. They have to date supplied our Band with (1) Sousaphone, (1) Baritone Horn, (1) Bass Drum (Complete Lettered) (2) Parade Snare Drums and all necessary accessories. The Band Boosters Club has also completely uniformed our Band. On July 4th they presented Bellingham's first Annual "Holiday of Music." All proceeds from activities sponsored by the Bellingham Band Boosters Club are used for equipment for our Band.

To bring about a more desirable Instrumentation for our Band the following background instruments are needed: (2) BBb Sousaphones, (3) Baritone Horns and (3) French Horns.

In closing, I would like to extend my sincere appreciation to the School Committee of the Town of Bellingham, to you, Mr. Minichiello, our School Principals and Teachers and to all those who have been so helpful to me in the interests of good, wholesome education through music.

Respectfully submitted,

JOHN G. CLEGG Supervisor of Music Education

### REPORT OF SCHOOL LUNCH SUPERVISOR

Mr. Anthony C. Minichiello Superintendent of Schools Bellingham, Massachusetts

Dear Mr. Minichiello:

I submit herewith my report as supervisor and manager of the School Lunch Program for the year 1961-1962.

The high level of students participation in the School Lunch Program continues to be a stimulating and encouraging experience to myself and my staff who strive constantly to prepare menus, which are varied and have eye appeal while being meals which are balanced and provide the full nutritional requirements of our charges.

The wonderful response we experience from the children in our special program for "National School Lunch Week" was a very rewarding experience. It was also most gratifying to have so many parents take advantage of this special program to get acquainted with the working of the School Lunch Program.

As in the past many factors contributed to the continued success of this program; to name a few, the active cooperation of parents and teachers, the five efficient women who prepare the food, the outstanding cooperation of school principal, Mr. Joly, and the Janitors, all take a sincere interest in this program. We are most grateful to you, Mr. Minichiello, for your splendid cooperation and are grateful to the School Committee for their fine interest.

During the year I attended the Spring Workshop in Boston and the summer seminar at University of Massachusetts at Amherst and was duly accredited for participation in the required state sponsored course in advanced management.

Respectfully submitted,

AMELIA M. TROTTIER,

Manager and Supervisor

### REPORT OF THE SCHOOL PHYSICIAN

Mr. Anthony C. Minichiello Superintendent of Schools Bellingham, Massachusetts

Dear Mr. Minichiello:

The following is a report of my work done as School Physician to the Town of Bellingham for the year 1962.

Grades one, four, seven and ten were examined according to the standards by the State Department of Education.

Students who were to participate in the Sports Program were also examined by me.

All reportable defects found during these examinations were reported to the respective parents. Most of the defects found were in the lower grades and it was also found that defects previously reported were properly corrected.

I want to thank you, the teachers, Miss Grace Moran, R.N. and Miss Lucy King, R.N. for the kind co-operation during the year.

Respectfully submitted,

HAROLD L. SHENKER, M.D., F.A.C.C. School Physician Town of Bellingham, Mass.

### **BELLINGHAM SCHOOL NURSING REPORT 1962**

Anthony C. Minichiello Superintendent of Schools Bellingham, Massachusetts

May we submit to you the Annual School Nursing Report for the year ending, December, 1962.

During October and November the School Nurse assisted Dr. Harold Shenker with the physical examinations. Grades 1, 4, 7,

32

and 10 and all boys interested in athletics were included. Notices regarding defects were sent home to parents and guardians by the School Nurse. Many school-home visits were made by the nurse regarding certain defects to guide and advise the parents as to the right course that might be taken.

Again this year on October 22nd Miss King assisted the Norfolk County Health Association personnel with the skin testing of pupils in Grade 11 for tuberculosis. The results were read three days later and positive reactors were x-rayed at the clinic in Franklin. All the follow-up work was done by Miss King. Excellent cooperation was given her by the parents.

Antigen Clinics were held in Bellingham Schools on March 30th April 2nd, April 27th, April 30th, May 18th, May 25th, and May 28th.

All children in Grades 1, 6, and 11 with signed permission slips were given the booster dose at one of these clinics. Dr. Harold Shenker was in charge of all clinics assisted by the School Nurse and volunteers. This year some of the members of the Future Nurses Club assisted also.

Vaccination Clinics were held at Pinecrest June 1st, and June 4th at Center and North Schools.

Minor injuries were taken care of and pupils taken ill at school were transported to their homes by the School Nurse.

Many school-home visits were made throughout the school year upon request of principals and teachers.

Eleven hundred and eighty-nine were vision tested and one hundred and sixty-three failed. One hundred thirty-eight were seen by an eye specialist. Eight hundred and ninety-eight pupils were audiometer tested and there were forty-two failures. Twentyeight were treated by an ear specialist.

The usual colds, sore throats, and virus infections were prevalent at intervals during the winter months.

The following is a report of the work done by the nurse in her visits to the schools in Bellingham:

1.	Inspection of pupils	668
2.	Pupils inspected for disease	22
3.	Pupils recommended for exclusion	32

4.	Pupil and nurse conference		156
5.	Home visits		89
6.	Teacher and nurse conferences		220
7.	Pupils treated for minor injuries		306

In closing may we thank Mr. Anthony Minichiello, Superintendent of Schools, for his cooperation and assistance; Dr. Harold Shenker, School Physician, Principals, Teachers, all school personnel, and parents for their courtesy and confidence; and the School Committee and Town Officials for their loyal support, and the Lions Club for their help with the eye program.

Respectfully submitted,

GRACE V. MORAN, R.N.
Supervisor
LUCY KING, R.N.
